Cutting Slabs and Steel Since 1980

Flame Tech Is Your Go-To Solutions Provider

Since 1980, Flame Technologies, Inc. has focused on producing the highest quality steel industry products. We are a second generation, family owned manufacturer, located in the suburbs of Austin Texas, with a comprehensive product offering, including:

- Heavy-Duty Hand Torches
- Caster Cut-Off Torches and Nozzles
- Machine Cutting Torches
- Gas Manifold Enclosures
- Safety Accessories

If you need a customized cutting solution, we can design and manufacture equipment to meet your unique specifications.

MADE IN USA

On-site Training & Audits

Flame Tech offers FREE on-site safety training, product demonstrations, and audits to ensure your team is safe, compliant, and efficient. Our highly skilled steel industry products specialists offer over 50 combined years experience with gas apparatus in scrap yards, steel mills, and other similar applications.

- Safety Inspections & Reviews
- Equipment Calibrations and Inspections
- Supervised Installations
- Custom Product Solutions
- Equipment Repair

Steel Industry Torch Trade-In

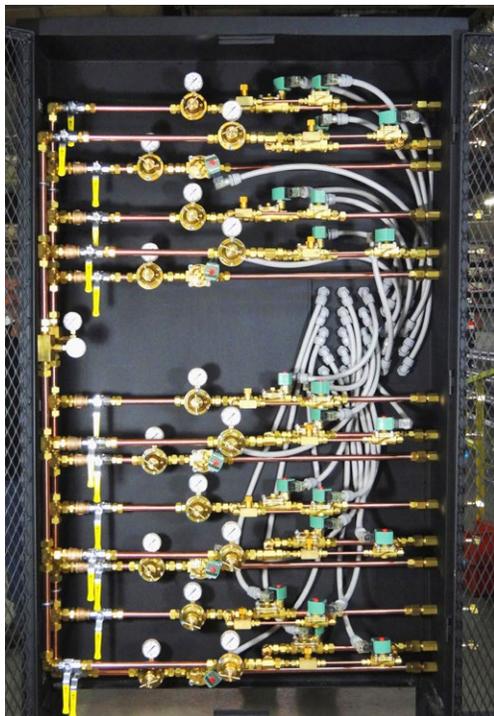

Designed for rugged environments and customized the way you want it. Models ranging from 8" to 48" cutting capacity and in lengths up to 20 feet.

STOP USING THOSE OLD, WORN-OUT TORCHES!!! Trade them in on comparable NEW Flame Tech torches and get a **20% DISCOUNT**. We will take SIP cutting torches in any condition, working or not, for trade-in.

Gas Manifold Enclosures

Custom engineered and OSHA compliant gas manifold enclosures for manual drop stations to fully automate caster cut-off torch control cabinets.
